

HOUSE MANUAL

Please Review Thoroughly

WELCOME TO PINE CABIN

Our Cabinscape is all yours to unwind, relax and adventure. Hunker down or pop out your front door and explore Haliburton Forest & Wildlife Reserve for lots of trails, lakes, and outdoor adventure activities.

Please review this House Manual before settling in. It should fully prepare you for the days ahead.

Enjoy your getaway!
John & Laura, Cabinscape Owners

PS: Share your photos with us on FB & Instagram! @Cabinscape #Cabinscape

NEED SUPPORT?

If you need help or have questions while on site, we have a central support number. Please text us instead of calling. Text messages are dispatched to our support team.

If you have specific questions about Haliburton Forest's activities, trails and services, please call their main office.

Cabinscape Support Number: (289) 206-1193

Haliburton Forest Main Office: 1 800-631-2198 (Open Monday-Sunday 8am-5pm)

Emergency Services: In the event of an emergency please dial 911.

CHECK IN is 4pm / CHECK OUT is 12pm sharp

LOCKBOX CODE: 1502

*We recommend leaving the cabin key inside the lock-box (located by our front door) so you'll easily find it when locking up. Upon your departure, make sure to leave the cabin key inside the lock-box where you found it.

PROPERTY ADDRESS:

Haliburton Forest & Wildlife Reserve, ON
1095 Redkenn Rd, Dysart et al, ON K0M 1S0

OFF-GRID BASICS / CABIN OVERVIEW

Pine cabin is a low-impact, off-grid, solar-powered tiny cabin. The cabin has been designed to offer you comfort and basic amenities in a rugged, camping-like setting.

Off-grid living requires a little more work and care than a traditional cottage (especially during the winter months). Feel good knowing that you've invested in a low-carbon, eco-friendly getaway.

STORAGE

Utilize the empty shelves and hooks for your bags and food. The best way to enjoy a tiny cabin is to keep it neat and tidy; tiny spaces can get messy fast. These cabins are extra tiny so any excessive things, best to leave in your car. Please do not leave your coolers outside overnight.

POWER CONSUMPTION

At Pine cabin, energy conservation is key. Drawing too much energy may cause power loss, so please be mindful of your consumption. A stretch of cloudy and rainy days will also mean less harvested solar power, so it's a good idea to check your power level often (we recommend checking each evening). If you're running low, not to worry! There is a generator outside you'll need to run to recharge the solar batteries.

You should only run the generator if your power is showing 12.4 or lower. Run the generator for 3-4 hours to charge the solar battery back to full.

NOTE: The battery panel is located in the washroom. The panel does not indicate when the battery is accurately full. The numbers will fluctuate throughout the day depending on the amount of sunlight and the amount of energy being consumed in the cabin. All you need to know is that when the battery stays lower than 12.4, you'll need to run the generator for 3-4 hours to charge back up. If the battery level does not jump up when the generator is running please text us, as this means it is not charging properly.

The generator is behind the cabin. Please review "Instructions" section at the back of the manual on how to operate the generator if needed.

CHECKING CABIN'S POWER LEVEL

To check the cabin's power level, check the battery indicator in the washroom on the wall. If it is consistently below 12.4, run the generator 3-4 hours to recharge the batteries.

Energy Conservation Tips

- Turn off lights when not in use (especially when you are outside of the cabin).
- During the day, keep the lights in the cabin off if there's enough natural light.
- Use the power outlet sparingly. There is one outlet in the kitchen for charging your phone and laptop but charging multiple phones / laptops will drain the cabin's battery quickly.

DO NOT use the outlet for high voltage items like hairdryers, coffee makers, kitchen appliances, etc. This is a low voltage outlet and power outages will result.

HEAT

The cabin's heat is controlled by a furnace and thermostat. To control the temperature you can adjust the thermostat on the wall.

If you experience any problems with the heater, please notify us right away. There is a back-up electric heater that you can use in this case. This electric heater is run off the generator which will need to be running in order for the emergency heater to function. Start up the generator outside and then turn on the electric heater. You can set the timer on the heater to run for a certain period of time and turn off automatically.

Do not plug the heater into outlets in the kitchen. This will result in power loss.

DRINKING/WASHING WATER

Guests are supplied with 40 litres of potable drinking and dish-washing water. There is a washing basin inside the sink for your dishes. Water can be dumped down the drain.

If you run out of water during your stay, you can refill your jugs at the water well shed near Base Camp. You'll need the Haliburton Forest key hanging on the wall in order to access the water well. Please return the key!

Water Conservation Tips

- Consider limiting the amount of dishes you use (the less you use, the less to clean)
- Consider saving your dirty dishes and doing one large wash at the end of the day
- Consider soaping all your dishes first and then rinsing clean
- Consider soaking any dirty dishes in hot (i.e. boiled), soapy water before rinsing

KITCHEN

Our kitchen comes equipped with a two-burner stove and mini fridge/freezer. There is a propane BBQ outside. The kitchen is stocked with cutlery, cups, plates, pots and pans. You are welcome to use our kitchen essentials (sugar, flour, tea, coffee and spices). We provide dish soap, sponges and tea towels. Do not leave food sitting outside, especially overnight, as this may attract unwanted pests. Do not leave unopened food sitting on the counters. Seal up your food and put away. Please empty your grease in our labelled grease bucket. Throw any coffee grounds in the garbage.

Small Appliances

You'll notice we don't have a coffee maker, microwave, toaster or oven. These appliances draw a lot of energy. You'll find a french press for your morning coffee and a stove-top camping toaster for your toast.

Gas Stove Instructions

To use the stovetop, press and hold down the knob (you'll hear a clicking sound) and turn to your desired heat level. If the burner does not "catch" flame, use the BBQ lighter to assist. In this case, hold down the knob, ignite the BBQ lighter and carefully place flame under the burner until the stove catches the flame. If the BBQ lighter is empty, refill the lighter with the butane canister.

BATHROOM

Composting Toilet

Our water-less composting toilet uses the natural processes of decomposition and evaporation to recycle human waste. (The toilet is emptied and cleaned before your arrival).

Toilet Instructions:

- SIT DOWN (Yes...BOYS & GIRLS)
- Urine goes down the front chute; Human waste and toilet paper goes down the back chute (under the waste flap). No flush required.
- When you sit on the toilet, the waste flap will open. Do your business. When you

stand up, the waste flap will close. DO NOT urinate in the back chute.

- There is a fan in the toilet constantly blowing air to keep any smells at bay.
- Do not throw tampons, food, organics or anything else down the toilet.
- Keep the toilet lid closed when not in use.

BEDS

There is one queen bed that's outfitted with a clean fitted sheet. In response to Covid-19, we have removed ALL BEDDING and towels from our cabins. You will need to outfit the bed with your own flat sheet, pillows, pillow cases and blankets. You will also need to bring your own towels.

HAMMOCK

Kick back and relax. There's a removable hammock hanging on the wall. Connect the other end of the hammock to the hook by the window. This hammock can only support the weight of one guest at a time.

LED LIGHTS

The cabin is outfitted with energy efficient LED lights on dimmers.

BUGS & WILDLIFE

Encounters with bugs, critters and animals are a reality of being in the wilderness. Please do not leave food outside and keep your inside food sealed up.

WIFI/CELL RECEPTION

There is NO WIFI access at the cabin. There is reliable cell reception but accessing data can be spotty and slow. (Don't plan on taking a zoom meeting here).

BE AWARE

We have three micro cabins. Each cabin is about 100 meters apart from one another, offering you relative privacy with the comfort of knowing others are close by. Be respectful of your neighbours and keep your voices to a minimum at night.

HOUSE RULES

NOISE LEVELS: Please keep your day and evening noise levels to within reason. No loud, amplified music. Please help us to promote a quiet and tranquil setting for everyone.

GARBAGE: All garbage and recycling must be packed up and removed from the cabin. There is a garbage and recycling dump near the parking lot on your way out.

TIDY UP: We ask that our guests please clean up after themselves before departure. Clean/wash all your dishes and leave the cabin as you found it. See list on kitchen wall for a reminder of check-out tasks.

PETS: Your dog must be leashed while outside on our cabin property. We do not want dogs venturing to neighbouring cabins. During snowmobile season, your dog **MUST** ride on your vehicle while on the trails. This is for their own safety. Before you leave, please sweep up any shedding fur around the cabin and pick-up any waste left on the property.

FIREPITS: Please manage your fires responsibly and ensure they will not spread before turning in for the night by dousing it with water.

SMOKING: Smoking is prohibited inside the cabin. Please dispose of your butts in the fire pit or in the garbage.

THINGS TO DO

SNOWSHOE/HIKE

During the winter months, there are three trails in Haliburton Forest that Cabinscape guests can use for free during the snowmobiling season (December to mid-March). [Click here](#) or head over to the Main Office at Haliburton Forest Base Camp for a map and directions to the trailheads for these featured trails:

- Chessler's Pond Trail - accessible directly from your cabin site! (2km loop)
- John's Trail and Forestry Walk (3km loop - easy)
- Dale's Trail (1.5km loop - easy)

The Haliburton Highlands Trails and Tours Network also features free publicly accessible day-trip trails with panoramic viewpoints within the greater forest area (between a 30-45 minute drive from the cabin). These trails include:

- James Cooper Lookout (1.5km in & out - easy)
- The Ridge (8km in & out - challenging)
- Circuit of 5-Viewpoints (5km loop - challenging)
- Crests of Kennisis (5 - 15km in & out - challenging)

Go to www.ontariotrails.on.ca for more information on trail conditions as well as directions to the trailheads.

EXPLORE HALIBURTON FOREST

Haliburton Forest & Wild Life Reserve is a protected wilderness sanctuary (100,000 acres) with endless hiking, mountain biking and snowmobiling trails, and attractions such as the Haliburton Forest Wolf Centre, Canopy Tours, Dog Sledding, Logging Museum, Cookhouse Restaurant, and more.

**For a full list of seasonal activities at Haliburton Forest, visit the Main Office at Base Camp or visit their website: www.haliburtonforest.com*

SNOWMOBILE TRAILS

During the snowmobiling season (mid-December-March), the network of trails that make up Haliburton Forest & Wildlife Reserve are converted into a snowmobiler's paradise! With over 400km of well maintained trails to explore, and Haliburton

Forest's unique placement at the top of the Algonquin Dome, this is the ultimate destination for winter snowmobiling and ATViing.

FEATURED HALIBURTON FOREST ACTIVITIES

WOLF CENTRE

Witness and learn about the pack of Wolves that live and roam freely on a 15 acre reserve set aside for them. This Grey Wolf Sanctuary sits within 70,000 acres of protected hardwood forest at The Haliburton Forest and Wild Life Reserve.

You Must Call Ahead to Book or Book Online! 1-800-631-2198

www.haliburtonforest.com

Entry to the Wolf Centre is by advanced reservation only. No walk-ins are permitted. A limited number of guests will be allowed in 1.5 hour time slots.

DOG SLEDDING

One hundred siberian huskies are waiting to show you Haliburton Forest's 100,000 Acres of Forest and 300 km of Trails. Whether a first-timer or an all-the-timer, guests will enjoy a unique dog sledding experience.

You Must Call Ahead to Book or Book Online! 1-800-631-2198

www.haliburtonforest.com

FOOD & CONVENIENCE

COOKHOUSE RESTAURANT (Haliburton Forest Base Camp)

For a quick bite and beverage, visit the Cookhouse Restaurant at Haliburton Forest Base Camp. It's open year round, licensed and offers take-out with picnic tables out front. They serve delicious breakfast options like waffles, pancakes and bennies, fresh sandwiches for lunch and standard camp fare like burgers and brisket, along with tasty veg options like roasted brussel sprouts and cauliflower wings.

THE CAMP STORE (located in the Cookhouse)

Stock up on your camp snacks and drinks here!

Operating Hours May Vary. Call ahead to ensure they are open:

Phone: 1-800-631-2198 ext. 150

Nearest Town

West Guilford is the nearest village to Haliburton Forest. Here you'll find basic groceries, LCBO, ice cream, pizza, and a souvenir/fudge shop. (10-minute drive)

Nearest Major Town

Visit the beautiful waterfront town of Haliburton for shopping, restaurants, cafes and events. (20-minute drive)

INSTRUCTIONS:

POWER LOSS

If power level in the cabin is low, the battery will go into a "safe" mode and shut off power to the cabin. Take the following steps:

- 1) Don't panic.
- 2) Start the generator. (It will need to run for 15 seconds before power is restored to the cabin).

To run the generator:

- 1) Check the gas level and ensure it is full
There is a red fuel tank beside the generator. If you need to purchase more fuel please buy "premium" fuel and let us know the cost. We will refund you.
- 2) Turn the "choke" lever to the right to the "on" position / ensure the engine switch is turned to "on". Ensure the air flow lever on the cap is turned to "on".
- 3) Pull the start pull. It should start easily but may take two or three pulls to get going.
- 4) Slowly turn the choke back off. If you are having trouble starting the engine try starting it with the choke off.

You can let the generator run while you are out enjoying the day, 3-4 hours should charge your battery to full. To turn the generator "off" turn the engine switch to the off position.

Conserve your power after a power loss to let the battery get charged up before plugging in your laptops/phones. Using a large amount of power immediately after a power loss could result in a subsequent power loss.

TROUBLESHOOTING:

No heat? The stove isn't working?

If the stove is not lighting flame or if the furnace is blowing air but not heating, you are likely out of propane.

At the side of the cabin there are two propane tanks and a switch in between. If you are out of propane the switch will show red. Simply turn the switch 180 degrees to change over to the second propane cylinder. The red colour should pop back to green, ensure that the tank valve is in the "open" position. Please notify us that the first tank is empty and we will switch it with a new tank before our next guest arrives.

Propane Alarm Sounding?

There is a propane alarm in the bathroom. This may go off if there is a propane leak. Our propane alarm is very sensitive due to the cabin's small size and sometimes the alarm will falsely sound after a long cooking session. If the alarm sounds you can turn off the alarm sound by pressing the button on the alarm.

DO NOT SMOKE OR USE A LIGHTER ANYWHERE NEAR THE CABIN DURING AN ALARM!

- First ensure that all of the stovetop elements are off and open a window.
- If the stovetop was not the issue, turn off the propane tanks at the back of the cabin and contact us immediately.
- If you smell gas (propane smells like rotten eggs) you should open a window and stay out of the cabin until it airs out. If the smell persists contact us immediately.

BEFORE YOU CHECK-OUT!

Please do the following important tasks before you check-out of the cabin:

- Tidy up / wash dishes

- Pack up / take home garbage and recyclables

(Guests who leave behind garbage/recycling will be charged a \$25 fee)

- Turn down heat to 10 degrees

- Close all windows

- Lock up cabin and make sure cabin key is in lockbox and that the Haliburton Forest key is hanging on the wall

- Lock up cargo sled and snowshoes in parking lot

Thank you for visiting :)
